Report of School Board

Another school year has closed, and in presenting our report we wish to say that we have been particularly gratified by a general increased interest in the work of our schools. Not only has this interest been manifest in our own town, but several inquiries have been received from other towns concerning our schools and the special facilities afforded by the town library equipment as an aid to more efficient work by both teachers and pupils. We believe our schools have done very good work the past year, perhaps more attention has been given to "foundation laying." Some changes have been made in our teaching staff but it is a pleasure to know that we have been able to select teachers of ability. Words of high commendation concerning the work and moral influence of our teachers have come to us from both parents and visitors. We would not say a word to discourage pupils from attending High School, or to undervalue a High School education, but there seems to be a growing tendency on the part of parents to hurry their children from district school to High School; we think that is a mistake, we would emphasize the great importance of foundation work. We believe a thorough knowledge of the studies taught in the eight grades of our District Schools to be more essential, far more valuable than a High School course without such thorough grade work. Sometimes pupils become discouraged through a failure in studies. To the older boys and girls frequent attractions come in various forms to unsettle their minds, and the temptation to break away from studies and quit school is insistent. We would say to parents, encourage your children, and let your home

counsel to them be a “stick-to-school” emphasis. We would call your attention to the article in the Warrant concerning Professional Supervision and recommend that it be given careful consideration. Before closing this report we desire to express our appreciation of the deep interest taken in our schools by Mr. and Mrs. Robert Barrett, and their generous cooperation with us in making our school work more interesting and helpful to our pupils—more efficient in practical ways.

The hard winter, with much illness in some of our school divisions has interfered with the attendance, making the average lower than otherwise. We again call the attention of parents and pupils to the following sections of our State School Laws concerning Compulsory Attendance, Vaccination, and Infectious Diseases. A ready willingness to comply with these laws makes it more pleasant for all concerned.

STATE SCHOOL LAWS

Compulsory Attendance.. P. S. 93

Section 14. Every person having the custody of a child between the ages of eight and fourteen years, or of a child under the age of sixteen years, unless such child shall have completed the course of study prescribed for the elementary school, residing in a school district in which a public school is annually taught, shall cause such child to attend the public school all the time such school is in session, unless the child shall be excused by the school board of the district because his physical or mental condition is such to prevent his attendance at school for the period required, or because he was instructed in the English language in a private school approved by the school board for a number of weeks equal to that in which the public school was in session in the common English branches, or, having acquired those branches, in other

more advanced studies. Any person who does not comply with the requirements of this section shall be fined ten dollars for the first offense and twenty dollars for every subsequent offense, for the use of the district.

VACCINATION

P. S. 93: As Amended by 19: 1901 and 90: 1909

No child shall attend any public, parochial, or private school unless he has been vaccinated or has had the small-pox, and this section shall be enforced by the board of health, except in the case of a child who has submitted to the process of vaccination not less than three times, or who holds the certificate of the local board of health that he is an unfit subject for vaccination. Said board of health shall issue such certificate upon the advice of a registered physician approved by said board of health.

INFECTIOUS DISEASES

16: 1901

No parent or guardian, person or persons having the custody of any child, shall permit such child, if infected with any communicable disease, or has been exposed to such, to attend any public or private school.

We have found it difficult to get repair work done. A new hard-wood floor has been laid in School House, Div. 3. School House, Div. 9, has been papered, painted, and part of a new floor laid. School House, Div. 11, has been papered, whitewashed; and painted inside. A new out-house has been built for School, Div. 13. Some light repairs have been made in School House, Div. 4. New stoves have been purchased for and placed in School Houses, Divs. 2, 3, and 11. There is much more repair work needing to be done. Four or five new out-houses in other divisions must be built as soon as possible to replace the unsanitary old ones. Some changes may be necessary in our school houses, to meet the requirements of the State Board of Health.

The higher cost of living, of labor, of material for building and repairs, of fuel, and school supplies; conditions with which we are familiar, have led us to a very careful consideration of the needs of our schools for the ensuing year. We would also call your attention to an amendment to the State School Laws by the last General Court: "The fiscal year of town and special school districts beginning February 16, 1917, shall end August 31, 1918, and thereafter the fiscal and the scholastic year shall end August 31, annually." This change was approved by the Governor on April 4, 1917, too late for action at our last School District Meeting. It will therefore be necessary for this Annual School District Meeting to make sufficient appropriations to support our schools until August, 1919.

In view of the foregoing facts we recommend that the District raise the following sums for the ensuing four terms:

Required by law	\$1,537.50
Additional amount, school fund	6,125.00
For school supplies, books, etc.	300.00
For High School tuition	500.00
For repairs in addition to balance on hand	200.00
For district officers in addition to balance on hand	175.00
Total	<hr/> \$8,837.50

We respectfully submit this report with its suggestions and recommendations trusting that the voters of the town will give it favorable consideration.

PEARL S. GORDON,
FREDERICK J. FRANKLYN,
EBEN M. JOHNSON,
School Board of Cornish.
